For Immediate Release

MTI Solutions, LLC Recognized as the 23rd Top Minority-Owned Business in Arizona

DiversityBusiness.com Names MTI Solutions Among Arizona's Top 50

Mesa, Arizona, November 10, 2004: In recognition of the economic power of multicultural businesses, DiversityBusiness.com the nations' leading multicultural B2B online portal, named MTI Solutions, LLC as one of the top 50 diversity-owned businesses in Arizona.

The Div50 is the 5th annual listing of the State's top 50 diversity-owned businesses. Ranging in revenue size from \$1 million to over \$38 million, the companies listed on the Div50 represent the State's top multicultural earners and challenge the long-held notion that a diversity-owned business is small or insignificant.

The Power of Diversity Business

It is no longer just "the right thing" to do business with diversity suppliers. Affected by recent economic and demographic trends and changes, corporations throughout the country are realizing that diversity in suppliers positively impacts their business. Diversity-owned businesses contribute over \$1.4 trillion in sales to the U.S. economy.

"Diversity businesses are a growing force in the U.S. economy, and a force to be reckoned with," said Kenton Clarke, CEO of Computer Consulting Associates International, the company that built DiversityBusiness.com. "It's no longer only about the Fortune 500, or the Fortune 500. This is a whole business segment that can carry its own, that provides jobs and valuable products and services, and generates wealth for their communities. These are the new leaders of American business."

For Immediate Release, November 10, 2004

“I graciously accept this recognition on behalf of all of the employees of MTI Solutions,” said Robert Velasco, President and Founder of MTI Solutions. “As a business, we have strategically aligned our solution offerings with not only the requirements of our customers, but also with needs of the diverse communities in which we live and work.”

The Div50

The Div50 is a classification that represents the top 50 diversity-owned (women, Blacks, Hispanics, Asians, Native Indian and other minority groups) businesses in the U.S., in sectors such as technology, manufacturing, food service and professional services. Large organizational buyers throughout the country that do business with multicultural and women-owned businesses use the list. The Div50 is produced annually by DiversityBusiness.com (formerly Div2000.com), the nation's leading multicultural B2B Internet portal that links large organizational buyers to multicultural product and service suppliers.
